

BETTER WATER MANAGEMENT for a Better Bottom Line

Complete water treatment, backed by
more than two decades of experience.

EXTERRAN SHALE PLAY SOLUTIONS

Built for the efficiency you need.

We're engineered to be strong, flexible and reliable, giving you a streamlined shale play solution with dependable efficiencies that result in the lowest treatment cost per barrel.

Our bandwidth helps your budget.

The experience and expertise of our team leads to a better return on investment (ROI). We have the knowledge to take on the shale play's most challenging water projects.

Consultations that lead to answers.

We value your time. Our consultations are true strategy sessions geared at finding the best solutions to fit any operation.

Trust our in-house experience.

One of our key differentiators is our dedicated, in-house water team. We deliver quick answers, insightful data and straight-forward solutions that provide you with greater value and knowledge of how to treat and handle your produced water.

Made to fit your needs.

Whether you want to go mobile or build a permanent operation, we can help. After we discuss your project requirements, our problem-solving team will develop the best solution for your water treatment needs.

Let's get started.

- ▶ Turnkey services to treat produced water in volumes from 100 to 1,000,000 barrels per day.
- ▶ Flexible options for purchase, lease, or contract operations and maintenance (O&M) services.
- ▶ Systems with real-time monitoring and automation to optimize performance.
- ▶ Sustainable technologies that can recycle and reuse for more cost-effective projects.
- ▶ An in-house water team dedicated to your needs.
- ▶ Ready-to-implement, full-service solutions and contract operations.
- ▶ Produced water solutions and treatments with decreased disposal cost, increased EOR and a rapid return on investment (ROI).

Rely on our global experience for efficient, responsible answers to your water management needs.
